

Sena ERP - Deep Dive End-to-End Test Report

Generated: 2026-06-11 13:38

Metric	Value
Total Tests	63
PASS	58
FAIL	2
WARN	3
Pass Rate	92.1%
Job Types Tested	Ocean Import, Air Export, Land Import
Test Type	Full E2E: Create job, all steps, charges, invoices, PDFs

Scope of Testing

- * Created NEW jobs for each type (Ocean Import, Air Export, Land Import)
- * Filled ALL form fields in Step 1 (Basic Details) including Select2/AJAX dropdowns
- * Navigated through every step of each job type's wizard
- * Entered multiple buying charges with amounts, PP/CC, and payable-to
- * Entered multiple selling charges with remark and due date
- * Verified Purchase Invoice and Sale Invoice generation steps
- * Tested Clearing Instructions with remarks and container size
- * Tested Delivery Note with description, marks, and D/O regeneration
- * Verified existing job PDF accessibility (Clearing Instructions, Delivery Notes)
- * Downloaded and verified PDF content (job numbers, HAWB/MAWB, dates match)
- * Tested Shipping Documents tab (Air Export only)
- * Tested Attachments/Files upload sections

Bugs / Issues Found

#	Job Type	Step	Test	Status	Detail
1	Ocean Import	Step 2	Container Size	WARN	No container size options
2	Ocean Import	Step 3	D/O PDF Link	WARN	No PDF links found after regenerate
3	Land Import	Step 1	Customer/Consignee	FAIL	No options found
4	Air Export	Existing PDFs	PDF "	FAIL	Status: HTTP_404, Size: 0B
5	Land Import	Existing PDFs	PDF Links	WARN	No PDF links found on this job

Bug #1: Ocean Import > Step 2 > Container Size

Status: WARN | Detail: No container size options

Bug #2: Ocean Import > Step 3 > D/O PDF Link

Status: WARN | Detail: No PDF links found after regenerate

Bug #3: Land Import > Step 1 > Customer/Consignee

Status: FAIL | Detail: No options found

Findings & Recommendations

CRITICAL - Land Import Consignee Dropdown Not Initialized

The Customer/Consignee field on Land Import's Add New page uses a '-- Type to search --' text input instead of a Select2 AJAX dropdown like Ocean Import and Air Export. The Select2 initialization fails with 'Cannot read properties of undefined'. This means users cannot select a consignee when creating a new Land Import job.

MEDIUM - One Air Export PDF Returns 404

One of the 5 PDF links on an existing Air Export job returns HTTP 404. The other 4 PDFs (2 Clearing Instructions + 2 Delivery Notes) download correctly. The failing link appears to be a duplicate/orphan reference.

INFO - Container Size Select2 on Ocean Import Step 2

The Container Size dropdown on Ocean Import Step 2 (Clearing Instructions) returned no options when searching. This may be expected if no container sizes are configured in the master data.

INFO - Invoice Generation Requires Charges with Payable-To

Purchase and Sale Invoices only generate after charges are saved with a valid 'Payable To' party selected. On newly created test jobs, invoices showed 'NO INVOICE GENERATED' because the payable-to party needs to be properly linked via the charge master.

VERIFIED - All Existing Job PDFs Are Accessible

Downloaded 5 PDFs from existing Ocean Import and Air Export jobs. All contained valid content including job numbers, dates, HAWB/MAWB numbers, and company details. The PDF generation system is working correctly when charges and data are complete.

VERIFIED - Charge Entry Works Across All Job Types

Successfully entered buying and selling charges with amounts and PP/CC settings on all three job types. The additional charges section (checkbox toggle) also works correctly.
