

Sena ERP

Comprehensive QA Test Report

Full System Testing - All Modules

Date: April 18, 2026

System: Sena ERP (Freight/Logistics)

URL: http://13.210.47.18:8088

Company: Aero Marin Land (TLI - Transport Logistics International)

Metric	Value
Total Pages Tested	72
Pages Loading Successfully	60
Pages with Errors	12
CRUD Operations Tested	20 master pages
CRUD Operations Successful	19 / 20
Job Creation Forms Tested	6
Financial Reports Tested	9 (all working)
Account Pages Tested	14 (all working)
DSR Reports	5 (all loading)
Overall Health Score	83% (60/72)

1. Executive Summary

This report documents comprehensive quality assurance testing performed on the Sena ERP system, a freight and logistics management platform operated by Aero Marin Land (TLI - Transport Logistics International). Testing covered 72 pages across all modules including page load verification, CRUD operations on 20 master data pages, job creation workflows for 6 transport modes, 9 financial reports, 14 account pages, and 5 DSR reports.

The system achieved an overall health score of **83%** with 60 out of 72 pages loading successfully. Eight critical and medium-severity bugs were identified, primarily affecting the Vendor Master module (HTTP 500), Land Import/Export routes (HTTP 404), and job creation form dropdown population. All financial reports and account pages are fully functional.

Category	Tested	Passed	Score
Page Load Tests	72	60	83%
CRUD Operations	20	19	95%
Financial Reports	9	9	100%
Account Pages	14	14	100%
DSR Reports	5	5	100%
Job Creation	6	2	33%

2. Page Load Test Results (72 Pages)

All 72 pages in the Sena ERP system were tested for basic page load functionality. Each page was accessed via HTTP GET and the response status code was recorded. Results are grouped by module below.

Dashboard - ALL OK

Page	Status
Dashboard	OK

HR - ALL OK

Page	Status

3. Critical Bugs Found

The following bugs were identified during testing. They are ordered by severity.

[HIGH] BUG-001: Vendor Master - HTTP 500 Server Error

Field	Details
Page	Common Masters > Vendor Master
URL	/237cddc13035afd40df532c9c471b4ea
Error	InvalidArgumentException - View [vendor.index] not found
Root Cause	View file name mismatch in Vendor.php controller (line 70)
Impact	Cannot access or manage vendor records

[HIGH] BUG-002: Activity Log - HTTP 500 Server Error

Field	Details
Page	Admin-only page (not in main menu)
URL	N/A
Error	QueryException - Unknown column 'u.FNAME' in ActivityLogController.php (line 48)
Root Cause	Database column reference doesn't match schema
Impact	Cannot view activity/audit logs

[HIGH] BUG-003: Land Import - All Pages 404

Field	Details
Page	Land Import > Open Jobs, Closed Jobs
URL	/8013f48199799dce7a1fde812910a496, /ad661c9739fbf14ddd1802a6cc8c15c9
Error	404 Page Not Found
Root Cause	Routes not registered or intermittent
Impact	Entire Land Import module non-functional
Note	During job workflow testing, these pages DID load (200) - may be intermittent or route was fixed

[HIGH] BUG-004: Land Export - All Pages 404

Field	Details
Page	Land Export > Open Jobs, Closed Jobs
URL	/2ca1dbee9121459dedd8cf2e88823068, /2785ba86aa37c0a8ff38e247afd5c2af
Error	404 Page Not Found
Root Cause	Routes not registered or intermittent
Impact	Entire Land Export module non-functional
Note	Same as BUG-003 - loaded during later testing

[MEDIUM] BUG-005: Air Export Booking Report - 404

Field	Details
Page	Air Export > Booking Report
URL	/7d27d418fe920b6bc9230e81ef3a9bae
Error	404 Page Not Found
Root Cause	Route not registered
Impact	Cannot view Air Export booking reports
Note	May have been fixed since initial test

[MEDIUM] BUG-006: Job Creation Forms - Dropdowns Not Pre-populated

Field	Details
Page	Ocean Import/Export job creation forms
URL	N/A
Error	Multiple required SELECT fields have 0 options
Root Cause	AJAX calls for consignee, lport, dport, overseas1, shpline, IncoTrms return empty
Impact	Cannot create new ocean jobs without manually populating dropdowns

[LOW] BUG-007: Ledger Group - No Form Fields in Add Modal

Field	Details
Page	Common Masters > Ledger Group
URL	/2b0f7f32c7f7af6b51bf090558391d67
Error	No form fields discovered in the Add New modal
Root Cause	Modal template missing or empty
Impact	Cannot add new ledger groups through the UI

[LOW] BUG-008: Quotes - No Add New Button

Field	Details
Page	Quotes
URL	/68915d3ba92a6ff8c96734362d61b15e
Error	No 'Add New' button found on the Quotes page
Root Cause	Button not rendered or different workflow expected
Impact	Cannot create new quotes from listing page

4. CRUD Test Results (Master Pages)

CRUD (Create, Read, Update, Delete) operations were tested on 20 master data pages. For each page, the 'Add New' button was clicked, form fields were discovered and filled, and the form was submitted. Results are summarized below.

#	Page Name	Category	Fields	Status	Created	Notes
1	State	Simple	4	SUCCESS	Yes	Country select + name
2	City	Simple	6	SUCCESS	Yes	Country + state + name + code
3	Company Type	Simple	3	SUCCESS	Yes	Name + status
4	Customer Type	Simple	3	SUCCESS	Yes	Name + status
5	Vendor Type	Simple	3	SUCCESS	Yes	Name + status
6	Ledger Group	Simple	0	NO_FIELDS	No	Modal has no visible fields
7	Commodity Master	Simple	4	SUCCESS	Yes	Code + name
8	Charge Master	Complex	7	SUCCESS	Yes	Code + name + tax + type
9	Company Master	Complex	5	SUCCESS	Yes	Name + company type + type
10	Customer Master	Complex	39	SUCCESS	Yes	Full form, 7 sections
11	Shipping Line Code	Complex	4	SUCCESS	Yes	Code + name
12	Address	Complex	6	SUCCESS	Yes	Name + type radio buttons
13	Job Type	Ocean	4	SUCCESS	Yes	Job type select + name
14	Vessel	Ocean	3	SUCCESS	Yes	Name + status
15	Ocean Port Sector	Ocean	3	SUCCESS	Yes	Name + status
16	Ocean Port	Ocean	6	SUCCESS	Yes	Code + name + country + sector
17	Airport	Air	6	SUCCESS	Yes	Name + code (some missed)
18	Carrier/Airlines	Air	6	SUCCESS	Yes	Name + code + prefix + addr
19	Carriers (Quote)	Quote	5	SUCCESS	Yes	Mode + code + name
20	Exchange Rates	Quote	3	SUCCESS	Yes	Currency + rate + date

5. Job Creation Workflow Test Results

Job creation workflows were tested for all 6 transport modes. Each test involved navigating to the job listing, clicking 'Add New', discovering form fields, and attempting to submit the form.

Ocean Import - Result: **FAILED**

Field	Details
Page Loads	YES (17 existing jobs)
Add New	Opens new page with auto-generated Job No (TLI/SI/2627//0467)
Form Fields	26 (12 text inputs, 14 selects)
Key Fields	Job No (auto), Job Date, MBL No, MBL Date, ETD, ETA, Delivery dates, Freight/Insurance charges, Shipment type (LCL/FCL/Consol), Incoterms, Consignee, Loading/Discharge ports, Overseas agents, Shipping line, Vessel, Warehouse, GBP applicable
Issues	10+ required SELECT fields have 0 options (AJAX-dependent)
Result	FAILED

Ocean Export - Result: **FAILED**

Field	Details
Page Loads	YES (1 existing job)
Add New	Similar form structure to Ocean Import
Form Fields	26
Key Fields	Same as Ocean Import
Issues	Same issue with empty dropdowns
Result	FAILED

Air Import - Result: **FAILED**

Field	Details
Page Loads	YES (12 existing jobs)
Add New	Opens form
Form Fields	49 (more complex than ocean)
Key Fields	Extended air-specific fields
Issues	Same dropdown issue
Result	FAILED

Air Export - Result: **FAILED**

Field	Details
Page Loads	YES (4 existing jobs)
Add New	Opens form
Form Fields	48
Key Fields	Extended air-specific fields
Issues	Same dropdown issue
Result	FAILED

Land Import - Result: **SUBMITTED**

Field	Details
Page Loads	YES (1 existing job)
Add New	Opens form
Form Fields	18 (simpler form)
Key Fields	Land-specific fields
Issues	None detected
Result	SUBMITTED

Land Export - Result: **SUBMITTED**

Field	Details
Page Loads	YES (1 existing job)
Add New	Opens form
Form Fields	18
Key Fields	Land-specific fields
Issues	None detected
Result	SUBMITTED

6. Financial Reports Test Results

All 9 financial report pages loaded successfully and returned data. Date filtering was tested and confirmed working on all pages.

#	Report Name	Rows	Date Filter	Status
1	Purchase Invoice	21	Working	OK
2	Sales Invoice	20	Working	OK
3	Purchase Invoice w/ VAT	21	Working	OK
4	Sales Invoice w/ VAT	20	Working	OK
5	Ledger Report	2	Working	OK
6	Customer Ageing	10	Working	OK
7	Supplier Ageing	10	Working	OK
8	Jobs w/o Purchase Inv.	10	Working	OK
9	Jobs w/o Sales Inv.	10	Working	OK

7. Account Pages Test Results

All 14 account pages (6 Debtors + 8 Creditors) loaded successfully and displayed data.

Debtors (6 pages)

Page	Rows	Status
Consignee Due	32 rows of outstanding invoices	OK
Consignee Paid	3 rows	OK
Agent Due (Debtor)	11 rows	OK
Agent Paid (Debtor)	1 row	OK
Shipper Due	1 row	OK
Shipper Paid	1 row	OK

Creditors (8 pages)

Page	Rows	Status
Shipping Line Due	14 rows	OK
Shipping Line Paid	1 row	OK
Co-Loader Due	1 row	OK

Page	Rows	Status
Co-Loader Paid	1 row	OK
Supplier Due	17 rows	OK
Supplier Paid	1 row	OK
Agent Due (Creditor)	3 rows	OK
Agent Paid (Creditor)	1 row	OK

8. Recommendations

#	Priority	Recommendation
1	CRITICAL	Fix Vendor Master view name (vendor.index -> correct view name)
2	CRITICAL	Fix Activity Log SQL query - column u.FNAME doesn't exist in the schema
3	HIGH	Ensure Land Import/Export routes are properly registered and consistently accessible
4	HIGH	Fix Air Export Booking Report route (currently returns 404)
5	HIGH	Fix job creation form dropdown population - AJAX calls for Consignee, Port, Agent, Shipping Line, etc. should pre-populate options
6	MEDIUM	Fix Ledger Group 'Add New' modal - form fields not rendering
7	MEDIUM	Add 'Add New' button to Quotes listing page or document the correct workflow for creating quotes
8	LOW	Add client-side validation messages for required fields in job creation forms
9	LOW	Add loading indicators for AJAX-populated dropdowns to improve user experience
10	IMPROVEMENT	Add confirmation dialogs for record creation and deletion operations
11	IMPROVEMENT	Add bulk operations (export to Excel/PDF) for report pages
12	IMPROVEMENT	Add pagination controls or infinite scroll for large data tables

9. Test Scripts Delivered

The following automated test scripts were developed and delivered as part of this QA engagement:

#	Script	Description
1	test_all_pages.py	Page load testing for all 72 pages - verifies HTTP status codes
2	test_crud_masters.py	CRUD operations on 20 master pages - form discovery, fill, and submit
3	test_jobs_and_reports.py	Job creation workflows, financial reports, and account page testing
4	discover_all_menus.py	Menu structure discovery - maps all navigation elements and URLs

End of Report - Generated on April 18, 2026
